## DETAILED ACTION

### *Amendment*

1. Receipt is acknowledged of the amendment after final Office Action filed on June 17,

5 2004, which has been entered. In the amendment claims 1, 4, 5, and 7 were amended.

Currently, claims 1-5 and 7-17 remain for examination.

### *Drawings*

2. As previously indicated, the application was filed with some informal drawings. The

10 application having been allowed, formal drawings are required in response to this Office Action.

### *Allowable Subject Matter*

3. Claims 1-5 and 7-17 are allowed.

4. The following is the Examiner's statement of reasons for allowance: the claims are

15 directed at a smart container usable in carrying spin-on material, organic polymer, or similar

material. The container comprises a monitoring assembly receiving cavity for the monitoring

assembly. The receiving cavity protrudes into the container, but hermetically isolated from the

storage cavity. The container further contains a sensing mechanism in the form of a dip tube,

recording mechanism, and I/O interface. Such structure is not disclosed by the prior arts cited in

20 previous Office Action(s).

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue
